

UBC TCF 2024

WELCOME!

We are thrilled to invite you to the 2024 UBC Technical Career Fair (TCF)!

UBC stands among Canada's top in Engineering & Technology and is recognized globally as 1st for industry impact, innovation and infrastructure*. We're proud of our commitment to technical excellence and inclusivity across Computer Science, Engineering, Arts and Business. In collaboration with women-focused tech groups, the LGBTQ+ community and hackathon groups, this year's TCF stands as a nexus for technical prowess and empowerment. Engage with a community of 3,000 students at UBC's premier technical career fair. Don't miss this opportunity—secure your spot now!

The event will be held on February 1, 2024, in the Great Hall South at the AMS Nest, UBC Vancouver. Package details are on page 2. Registration instructions are on page 3.

If you have any questions or concerns regarding the event, please send them to vpv@ubccsss.org or external@ubccsss.org.

We look forward to seeing you in January!

WHY JOIN US?

As the only annual tech-focused career fair at UBC, this event is the premier networking event for thousands of students studying Computer Science, Engineering, Arts and Business. UBC has the largest Computer Science program in Western Canada; UBC CS is home to 3,000+ students with the most co-op placements in 2022 among BC and AB institutions. Establish your tech recruiting pipelines at one of Canada's biggest universities. Recruit from the best!

REGISTRATION INSTRUCTIONS

Don't Have an Account

1. Visit <http://ubc-csm.symplicity.com/employers>.
2. Click "Sign Up" and follow the instructions.
3. You will receive your login information via email, once your account is approved.
4. Proceed to the "Have an account" section below.

Have an Account

1. Visit <http://ubc-csm.symplicity.com/employers>.
2. Login to your company account.
3. Click "Career Fairs" under "Event Registrations".
4. Select "UBC Technical Career Fair 2024" then "Register".

Registration Details

With limited booth space, we aim to balance admissions for local and non-local companies, varying company sizes, and a variety of different sectors. All registrations are reviewed and offered on **a rolling basis**. We will confirm within **2 business days**. We will send Square payment invoices **after** notification of your acceptance of the event. Note that additional hospitality packages are available on demand.

Registration requests submitted before E.O.D November 30, 2023, will be given early-bird prices. The final deadline for submitting a registration request is January 29, 2024. We will confirm your spot no later than January 30, 2024.

If you require additional time to submit your request, please contact us at vp@ubccsss.org. We will be happy to discuss your situation in more detail.

UBC TCF 2024

PARTNER SPOTLIGHT

The UBC Computer Science Student Society is excited to partner with 4 affiliate clubs to help make this year's TCF possible. Learn about their initiatives below!

Women in Computer Science

Women in Computer Science (WiCS) is a student-run inclusion and diversity group at UBC that addresses the gender underrepresentation problem in Computer Science. We strive to build a strong community dedicated to celebrating diversity and to foster inclusive environments for students studying computer science.

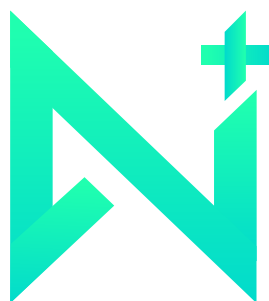

Women in Data Science

Women in Data Science is a female-led student initiative that aims to empower, inspire and connect women and gender minorities in tech field at UBC. We aim to provide professional development opportunities and a tight-knit community for our members to feel confident whilst pursuing data science as part of their studies.

Queer Coded

Queer Coded is a group for LGBTQ2IA+ students and allies interested in Computer Science at UBC. Our goal is to create a safe and welcoming collective that fosters community building and empowers and supports students, while increasing the visibility of LGBTQ2IA+ people in tech.

nwPlus

nwPlus is the UBC club behind Western Canada's largest hackathons. As a member of the Vancouver tech community, we aim to develop future software engineers, UI/UX designers and product managers by providing opportunities to learn new skills, make connections within the tech community, and approach tech as a tool to empower education & diversity.
