## Minutes

### **Communications**

The wiki setup might serve well as a central document repository.

We have a contractor for the grad photos, he also offered to make us a frame for last year's photo.

Moyra is looking for participants to decide on paint colour scheme for project rooms that are being revamped.

Byte to Eat is doing well, though not as well as last year. This is probably because it's not being promoted as heavily as last year.

SUS: We need to have a booth next term during science week. Michelle will give us swag to hand out if we give her enough notice. We currently have pins and lanyards to hand out. We also have some bizarre USB powered cup warmers (?)

Evangelo's has offered to let the Cube sell grad photos for cheap.

**Cube Office Hours:** The Cube will now be open until 9pm, weekdays and weekends.

## **Action Items**

### **Social**

We have some photos for recent events, but we really need a designated photographer at events.

### **BBQs**

The department supports our current practices, the AMS has been non-responsive with respect to requests for clarification of regulations. We may advertise that we only serve CS students.

**Pizza Sales** are now charity events with a minimum donation, to get around certain food regulations.
